[Voice-Controller]

User Guide

Step 1

Don't underestimate button battery. It can be used for 6 months! As the case with battery inside is fitted well, the small light will give out 5 flashes, see? Great first step!

(1) Remove the battery case.

(2) Put the battery into the attached case with the positive pole facing down.

(3) Plug it into the battery jar, 5 flashes of blue lights indicate a success.

The designers have racked their brains just for your convenience. You can replace the battery by pulling your little finger gently. It is so capricious with talents.

(4) Hold the bottom of battery case and pull it out.

(5) Remove the battery case to replace the battery.

Step 2

Is your phone Fashion(able) enough? It support 4.3 or higher OS version for Android phone and IOS7.0 or higher for Apple phone with iPhone4s or newer.

Dear, if your phone version is too low, hurry up to upgrade it.

Search the "ijiazu" in the App Store or scan the QR code below to download and install it. By the way, please give us praise.

(6) App Store

(7) QR code of **ijiazu** App

Step 3

Open ijiazu APP. There is no need of Bluetooth pairing, it will be automatically connected!

1. When you open the mobile APP, it might remind you to "Turn on Bluetooth" or prompt you to use privileges such as sound recording, location, phone calls etc. Please do make a choice.
2. It is recommended that ijiazu App should be on for automatic connection next time.
3. The App on Android phone may be killed automatically after a long time run. Just open it again.

Bluetooth is connected successfully.
Welcome to use Voice-Controller

It is connecting to Bluetooth now and can be
used after the successful connection

Bluetooth is connected successfully.
Voice-Controller is in low battery

Bluetooth connection is failed. Please make
sure the phone is close to Jingling is in low
battery

(8) Main Interface of Android APP

Step 4

Come to your car and buckle up the strap just like wearing a watch. Fix it to the inside of the steering wheel (Note that you should install Voice-Controller to steering wheel firstly when a handle grip need to be installed moreover). Now the Voice-Controller will fit with your car. However bumpy the road is, they will not be separated.

(9) Fasten the strap in the metal card buckle

(10) Installation is complete

Step 5

	Single-click: Voice input
	Sing-click: option moves one step upward Long press: switch the applications
	Sing-click: option moves one step downward Long press: switch the applications
	Back to upper level Exit Navigation(during navigation) Decline a call(phone rings) Hang up the phone(in a call)
	Confirm your selection Answer the phone(phone rings)

[Note]Voice command parsing / navigation / playing network content require network support.

FCC STATEMENT

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
